FLASHLIGHT ON ANNUAL SYLLABUS

CLASS -XI(COMMERCE)

Only a child sees things with perfect clarity, because it hasn't developed all those filters which prevent us from seeing things that we don't expect to see.

Dear Parents,

We welcome you all to this new academic year 2026-2027 charged with great enthusiasm and optimism. We extend our warmest greetings to each and every one of you on this educational journey.

Education is not only an act of acquiring knowledge but learning a skill to lead life and forming one's personality. We focus on discovering, developing and drawing out the hidden talents and the magic lying dormant inside all of our students.

When dealing with students there is a greater need for observing than of probing. All of them may not answer as per the required criteria but they show the interest in it. All the observations play a vital role in nurturing the child in the most appropriate manner. In the present era we need to have holistic approach to groom the personality of our students.

As we know teachers are the nation builders. Our teachers aim that children must be taught how to think , not what to think. For this, they strive hard to continue with providing a holistic education to all students as far as possible through new ways of organizing school programs and activities and our students respond well with appreciation and gratitude.

We would like to express our deepest gratitude to the parents for their remarkable cooperation and trust which they showed in this institution and made our journey a benchmark for others.

Thanks and regards.
